DIARY  
Special Asst. (Admin.) to DD/I

Thursday, 12 March 1953

1. held a second meeting with the key office representatives to discuss space planning. It was agreed that the O/CD requirements could be met by relocating the biographic register in the North Building releasing sufficient space in Riverside Stadium for the expansion of the remaining O/CD activities. The problem of additional space for O/CI, O/RR and O/SI can be met in only one of two ways: (1) the relocation to South Building or Barton Hall (across Independence from K Building) of portions of present divisions which do not have to be behind the barrier. The disadvantages of this are obvious, especially considering the general requirement that most activities must be within the barrier; or (2) the relocation of a large activity such as O/SI to Barton Hall and making the building a secure area for SI, including appropriate provision for courier service, etc. Further discussions will continue on a preliminary and a sensitive basis in an effort to find a workable solution to the problem.

2. [REDACTED] Organization and Methods, called to advise that it had been determined to "table" for awhile the plan for the centralization of graphics facilities under O/RR geographic. [REDACTED] stated that inasmuch as agreement could not be secured on a voluntary basis, it was the reaction of both Dr. Guthe as well as [REDACTED] that no further action should be taken at the present time. Neither DD/P nor Training would concur in the plan on a basis which would be satisfactory to O/RR.
